---

March 15, 2020

Effective immediately the Delta County School District and Technical College of the Rockies, with the support of the Delta County Health Department, are closing schools March 16 through March 27th as a way to mitigate the potential spread of COVID-19 virus and to promote the safety of our community.

Delta County School District's HIGHEST priority is the health, safety, and well-being of our students, staff, and families. The pandemic of COVID-19 and the public health crisis forces us to make very difficult decisions. We are in uncharted waters as we do everything within our power to prevent the spread of the virus.

The status of the School District will be re-evaluated on a daily basis, in collaboration with our local partners during the closure to determine when our schools and activities can resume. Please visit our website ([deltaschools.com](http://deltaschools.com)) and Facebook page for regular updates.
